

STARCRAFT

1986 Fold-Down Camping Trailers

Quality Products Since 1903
Lifetime limited Guarantee on all Lifter Systems

AllStar Series

Luxury. The dictionary defines it as a habitually sumptuous environment or way of life. It's a definition that accurately describes our 1986 AllStars.

Quite simply, they're the best, most luxurious campers made today.

Their names reflect the stellar quality found in all four models. Starmaster, Galaxy, Stardust, and the new Nova.

A plush interior, with real wood paneling. Decorator drapes and tiebacks. Plus solid oak framed doors and hardware. It all adds up to unmatched comfort and style.

But luxury without substance is not sufficient. Wide axle tracks and independent torsion bar suspension give them incomparable towability.

More insulation than any camper on the market keeps it warm in winter and cool in summer. And adds to the structural integrity.

A massive 4-inch steel frame and one-piece metal underfloor means no other camper is built to last as long.

One word: Luxury.

One line of campers: AllStar.

Five years of coverage.

Our roof, floor, and frame are covered by a 5-year limited warranty. The first three years cover parts and labor, the last two years parts only. The entire unit is covered by a one-year limited warranty against defects in materials and workmanship. Ask your dealer for complete details.

StarLite Series

Quality, features and a mid-range price have made Starcraft's StarLite line of campers the knowledgeable RV'ers new choice.

Our StarLite models are loaded with the specific features and overall quality that have made Starcraft the world's No. 1 seller over the past 20 years. More than you'll find on other brands' high line models.

Quality features like laminated wall construction and metal underfloors. Torsion bar suspension. Four adjustable stabilizer jacks. Starcraft's exclusive self-storing dolly wheel. Back up lights. A choice of six models including a twin dinette and two different side dinette units.

Step inside and you'll find the same attention to attractive comfort and detail with features like decorator drapes and real wood cabinetry. A carry-out three-burner range and stainless steel sink. All standard, of course.

Moderately-priced with high price features and quality. StarLite.

Limited Lifetime Lifter Guarantee

The Starcraft lifter is the industry's best and most reliable system. We are confident enough in our lifter system to cover parts and labor for three years and parts for as long as you own your Starcraft (original owner only), including normal wear and tear.

SLE Series

When you're looking for your first RV, you're looking for a name you can trust, lots of standard features and quality at an economical price.

With that in mind, Starcraft introduces its SLE series.

We haven't cut any corners in bringing you the Special Lightweight Economy line. They all offer the same durability and comfort that RV'ers have come to expect from Starcraft.

Like a rugged open wheel frame and widetrack independent suspension. Galvanized steel wheel wells. Five piece sectionalized tent. Low-effort crank up roof lifters. Electrical power converter and complete water and gas systems.

Five models sleep six comfortably and one model can handle a family of eight. Every model has a galley complete with a range, ice box, sink and faucet/pump.

Quality, economy-priced campers with a name you know you can trust.

The Starcraft SLE series.

AllStar Series — Unmatched Luxury

Stardust 24

Galaxy 24

Nova 24

Starmaster 21

AllStar Series

Hot water system available on all 24' AllStar models

There's no comparing the Starcraft AllStar to any other fold-down camper made by anyone. In fact, some RVers insist on comparing our four AllStar models to full-size travel trailers.

All of our AllStars have a super-wide wheel base that not only makes for smooth towing, but also gives campers lots of floor space in our plush interior. Starcraft camping folks can set up the bunkends inside and out without bending over.

plenty of counter storage and finely crafted oak-framed cabinetry and hardware. And spacious drawers and wardrobes where you can put all your clothes and not bother with suitcases.

There's also a long list of little things that just aren't found in ordinary fold-downs. Like the medicine cabinet with mirror and built-in shelves. An optional toilet. The indoor/outdoor table. And there's the fine craftsmanship displayed in the radiused corners on all of our cabinetry modules.

Starcraft buyers are sure to like the shower option in the Galaxy and Stardust. Imagine how convenient it would be to come out of the swimming pool, and not have to traipse off to the public facilities. And how nice a refreshing shower would feel — whether starting out or ending a day of camping fun — in the privacy of your own camper.

When mealtime arrives, our AllStar galleys are second to none. Take a look at all that counter space and the three-

Then there are all the standard luxury features. Like

burner range, which can be used inside or out. And the 10 or 20 gallons of water that can be stored in the AllStars' tank lets families choose their campsites on the basis of shade — not how close it is

to the pump. The whole patented galley unit swings down — without taking up floor space — when it's time to pack up.

Now, we don't mind comparisons between deluxe travel trailers and our luxury AllStars, but we do want folks to keep in mind that they're fold-downs.

After all, fold-downs are just about the least expensive way to camp in style. Not only do they require less gas from your tow vehicle, but they tow easily and take up less room

back at home.

No, we don't mind the comparisons between AllStars and travel trailers. Especially since there is no comparison between AllStars and any other fold-down.

StarLite 17

StarLite Series

When it comes to a great, moderately priced fold-down camper, with loads of features and quality it comes to StarLite.

Take the galley. The chrome, three-burner range can be taken outside, so whoever lands breakfast duties can cook without disturbing

the rest of the family. The sink is sturdy stainless steel to make clean-up a snap. There's a brass city water hook-up for a constant flow in full-service campgrounds; and a big, 10-gallon tank for camping primitive — but in comfort. Plus, the whole galley unit is simple to flip into position when setting up camp.

Speaking of setting up, StarLites make it a cinch with one-piece, slide-out bunks and Starcraft's famous low-effort crank-up roof lifters.

And once the StarLite's set, it's stable, with four adjustable jacks that quickly fold-down at the corners.

Then there's the real wood cabinetry, light weight free standing table, loads of storage

space and other amenities that enhance all your camping trips.

Of course all six StarLites have the same durable quality built into all Starcraft products. Like the wide track design and independent suspension for superior performance

on the road. And the galvanized steel wheel wells and overall tough construction that

make the StarLites campers that'll last and last.

So step into a StarLite, and see how comfortable and economical camping can be.

SLE 17

SLE 16

So it's time to buy your first family camper. You don't want to spend a whole lot of money, but you want a fold-down that's built to last from a company whose name you can trust.

Meet our Special Lightweight Economy line of fold-downs, brand new for 1986.

Our seven sturdy SLE models come loaded with all the standard features you need for comfortable camping, yet are priced to meet anyone's pocketbook.

The galleys feature chrome

LP ranges (two burners in the three smaller units, three burners in the four larger ones), a

stainless steel sink and built-in ice box. And the whole gal-

ley arrangement flips into place for easy setup.

The SLE campers also feature Starcraft's wide track axle design and independent torsion bar suspension that makes all of our campers tow like a dream.

of floor plans, including a twin dinette and Starcraft's convenient side dinettes.

Standard comfort features include foam-backed decorator

drapes, a light weight free standing table, power converters and high pressure laminate counters that are as tough as they are nice to look at.

Our SLE series offers everything the first-time buyer could want, including a price that compares with anything other camper makers have to offer.

The best part is that they're made by Starcraft, the company that's been on top of the RV world for more than 20 years. A place where we aim to stay.

And of course there are the low effort crank up roof lifters, exclusive, self-storing dolly wheel and stabilizer jacks that make setting up camp simple and fast.
The SLE line offers a choice
