

STARCRAFT

QUALITY AND INTEGRITY SINCE 1903

1987 CAMPING TRAILERS

LOOK AT US NOW!

REDISCOVER YOUR FAMILY IN A **STARCRAFT**!

**HIGH STYLE, LUXURY FEATURES,
AND STARCRAFT'S RELIABLE TOP-
QUALITY CONSTRUCTION.**

The best-made camping trailers on the market are better than ever and much better than any others! Our 1987 line of Starcraft fold-downs gives you things no one else has ever offered.

Everything is new – except our commitment to excellence! They're built to last longer and give the kind of camping experience that families have come to expect from Starcraft. Take a good look at us now!

□ New, stunning exterior design. Seen most dramatically in our luxury units with aerodynamic, molded fronts and backs and bonded fiberglass sides, the balance of our campers have all new lines also. They're all lighter and sleeker.

□ Wide track independent torsion bar suspension is standard on all models. Our campers are smooth riders that make taking them down the road a pleasure.

□ Starcraft's patented crank up lift system, already the most widely used and reliable design in history, has been dramatically improved. All cable is now a full $\frac{1}{8}$ " 7 x 7 aircraft stainless steel throughout and lifter posts have been made 15% larger and are now fashioned from higher quality stainless steel. New, tougher brackets and pulleys round out a system that's 112% stronger! No other system is as strong and that's why we back it with a **LIMITED, LIFETIME WARRANTY!**

□ Interior headroom has been dramatically increased. It's 6'7½" in most models and 6'5½" in all others. Bunk end headroom is the highest in the industry! Four-inch bunk end mattresses are standard

on Galaxy, Constellation, Nova and Comet.

□ Easy-up bunk ends. Why waste precious time setting up? Our redesigned bunk ends make it a snap. More headroom in all models than any other brand.

□ New, free-standing table. Use it inside or out! Anywhere!

Starcraft has been known for our quality campers since 1964 when we invented the first crank-up lifter system on a camper with a hardtop. Now we're better than ever. No doubt about it. Our '87

□ Indoor/Outdoor range. Standard on all but two models, this range attaches to the side of the camper and hooks up to the same L.P. source, inside or out.

lineup is unsurpassed when it comes to delivering a great camping experience.

No wonder why we're telling people to "Look At Us Now!"

CONSTELLATION

Starcraft's Constellation and Nova epitomize the sleek new look and thorough usefulness your family will enjoy from Starcraft in 1987 – and for years to come.

A truly great camping experience needs a truly great camper, and Constellation is the best. No more need to use

the public facilities – our Constellation comes with a shower and hot water heater. Other standards include an indoor-outdoor range, an extra-large stainless steel sink, and a huge 76" x 73" bunk with its own reading lamp.

NO MORE PUBLIC SHOWERS!

NOVA

Nova means new. It's also the word for a blazing star. Starcraft captures newness and brilliance in our Nova, innovatively designed for camping pleasure.

Take the side dinette floor plan. There's a huge 76" x 73" bunk and living space that enables your camping family to move around with ease. There's also more storage, so you can take along everything you want, packed and out of the way.

Towing Nova and the rest of Starcraft's campers is a breeze, thanks to the superwide axle track and independent torsion bar suspension. All four of our top-line units also have four built-in stabilizer jacks that keep your camper level even if the ground isn't.

When you're looking for the ultimate in "new", look for Nova.

**CONSTELLATION AND NOVA
AVAILABLE IN YOUR CHOICE
OF BLUE OR MAUVE**

GALAXY

The Starcraft Galaxy is 23 feet of camping enjoyment that features Starcraft's front dinette floor plan. With the front dinette, the camper is actually divided into two separate rooms, which gives you privacy and convenience not found in other units.

**GALAXY AND COMET
AVAILABLE IN YOUR CHOICE
OF MAUVE OR BLUE**

The optional canopy for the Galaxy and the rest of Starcraft's 1987 camper lineup is designer beige with blue and burgundy stripes.

HUGE 76" X73" BUNK!

COMET

The Starcraft Comet blazes onto the scene with all the fine features of its three bigger brothers – packed into a 19-foot package. It's the lightest of our luxury campers.

Like the Constellation, Nova and Galaxy, the Comet has an all new exterior look that includes sleekly styled front and back construction and sides of smooth fiberglass.

STARSTREAM

When you want the biggest camper around but don't want to spend a whole lot of money, you want the new Starcraft Starstream. It's 24 feet of Starcraft engineering with big windows and huge bunks.

Like most of Starcraft's new 1987 campers, the Starstream has a portable stainless steel stove that hooks up to the LP source inside or out.

The Starstream's side dinette floorplan gives your family more room to move around, without compromising on storage. You actually have more of it!

OUR BIGGEST CAMPER!

The Starflyer has the same side-dinette floor plan that gets full use of its 21-foot length.

Like the Starstream and the rest of Starcraft's new campers, the Starflyer is available with a whole new boat rack and bike rack accessories.

All units can be prepped for air-conditioning. And you can get a 17,000 BTU heater to extend your camper's use far into the snow season.

For a roomy camping experience, try the new side dinette Starstream or Starflyer.

STARSTREAM TO ASTROLITE:
YOUR CHOICE OF PLUM
OR PEACH

STARFLYER

STARMASTER

Got a big family?
Get a gaucho!
A "gaucho" is a seat arrangement in the 21-foot Starmaster that turns into an extra bed. Eight people can sleep comfortably in this light-weight unit.

When breakfast time rolls around, some members of that big family will appreciate the extra sleep while the others cook outside on the portable, three-burner stove. Hook it to the main LP supply inside or out

**TOWABLE BY TODAY'S
SMALLER CARS!**

STARMATE

The 19-foot Starmate sleeps six and has the same carry-out stove assembly as the Starstream. Like the Starmaster, the Starmate is available with a 17,000 BTU forced air heater.

You can get the Starmaster with a two-way refrigerator (electric or gas). The Starmate comes standard with an ice box, but also has a new (optional) portable chest type fridge available.

When your crew outgrows a tent, look to Starmate and Starmaster.

USE IT YEAR - ROUND !

STARBLAZER

We've packed a "ton" of quality features into our 17-foot Starblazer – and it's still a lightweight, great way to travel.

The Starblazer has a rear dinette and sleeps six.

Its sink is stainless and supplied by an on-board, 10-gallon tank. The stainless steel, three-burner range is removable so you can cook outdoors on warm summer evenings.

Starblazer. Lots of features at an economy price.

A GREAT WAY TO GO!

ASTROLITE

METEOR

Our price leaders, the 17-foot Meteor and 16-foot Astrolite are every inch a Starcraft. Both are available with your choice of peach or plum interiors. They're the answer to economy-minded family fun.

Included in each of these lightweight and durable campers are big ice boxes, stainless steel sinks, two-burner stoves, and complete electrical and water systems.

QUALITY AND FEATURES FOR A LOW, LOW PRICE!

STARCRAFT

QUALITY AND INTEGRITY SINCE 1903

1987 CAMPING TRAILERS

LOOK AT OUR HERITAGE

You'd have a hard time finding a company in the recreation business that has a stronger heritage than Starcraft. We started in the heart of Midwestern Amish country making farm equipment back in 1903. Producing galvanized steel boats in the off-season, we found our boat building business booming by the roaring '20's.

We made our first aluminum boat right after WWII and have made fiberglass boats since 1956.

In the 1960's, Starcraft moved into the RV scene, introducing a fold-down camper with a crank-up lift system and hard top. The concept was widely copied, but we remain near the top of the camper world year after year. We also make fine fifth wheels and travel trailers.

For the past several years, Starcraft has made quality automotive products. We were the first to make true luxury van conversions, and now turn out more of them than anyone.

Starcraft Sailboat Products markets such well known names as O'Day Sailboats, Cal Yachts and Prindle Catamarans.

Starcraft is proud to be a division of Lear Siegler, a company with \$1.5 billion in assets and more than \$2 billion in annual sales. Other LSI companies include Piper Aircraft and Smith & Wesson firearms. The LSI connection gives Starcraft stability and access to the latest technology for continued growth.

Working at Starcraft means working with pride. Our people are our products. At Starcraft, making campers is a lot more than an as-

sembly line operation. It's a people process, with each handcrafted camper reflecting our pride.

The Amish have always been known for their exacting craftsmanship and attention to detail. Starcraft is located in the heart of Northern Indiana's Amish country and employs many of these dedicated, hard-working people. Their precise techniques and work habits, coupled with modern day technology result in a product built with pride reflecting the best of both the old and the new.

And its because of our pride in our products that we urge you to "Look At Us Now!"
