Quality and Integrity Since 1903

## 1988 Camping Trailers

# MAKE THE RIGHT CHOICE

## Starcraft Tops the Competition in Strength and Durability!

You're about to make a big investment for your family's time together. Be sure you've looked beyond just appearance and features. Yes, Starcraft gives you pleasing, well-finished interiors with loads of features and options to make your getaways really comfortable and enjoyable. But Starcraft quality goes through every inch of every camper, giving you long wear and high resale value.

We design every part of the camper to be dependable and durable. Our patented lifter system is the most reliable available, and it makes set-up quick and easy.

We use 1/8-inch stainless steel aircraft cable that meets military specifications and is rated to support more than 1,700 pounds. The 3- and 4-stage columns are larger than any other on the market and, because they are made of solid stainless steel they will never rust.

Extra strong and ready to go with a minimum of maintenance, our pulleys are larger, carburized steel, pre-lubed, and sealed for a lifetime of wear. The attaching hardware is heat-treated to twice the strength of standard hardware.

The actuator operates the system so easily that one person can set up a Starcraft fold-down camper in about six minutes. Its automatic brake allows you to let go of the crank handle at any time while cranking either up or down. When you stop, the roof stops — no free-wheeling. It also lets you know when the roof is fully up. You can't overcrank it!

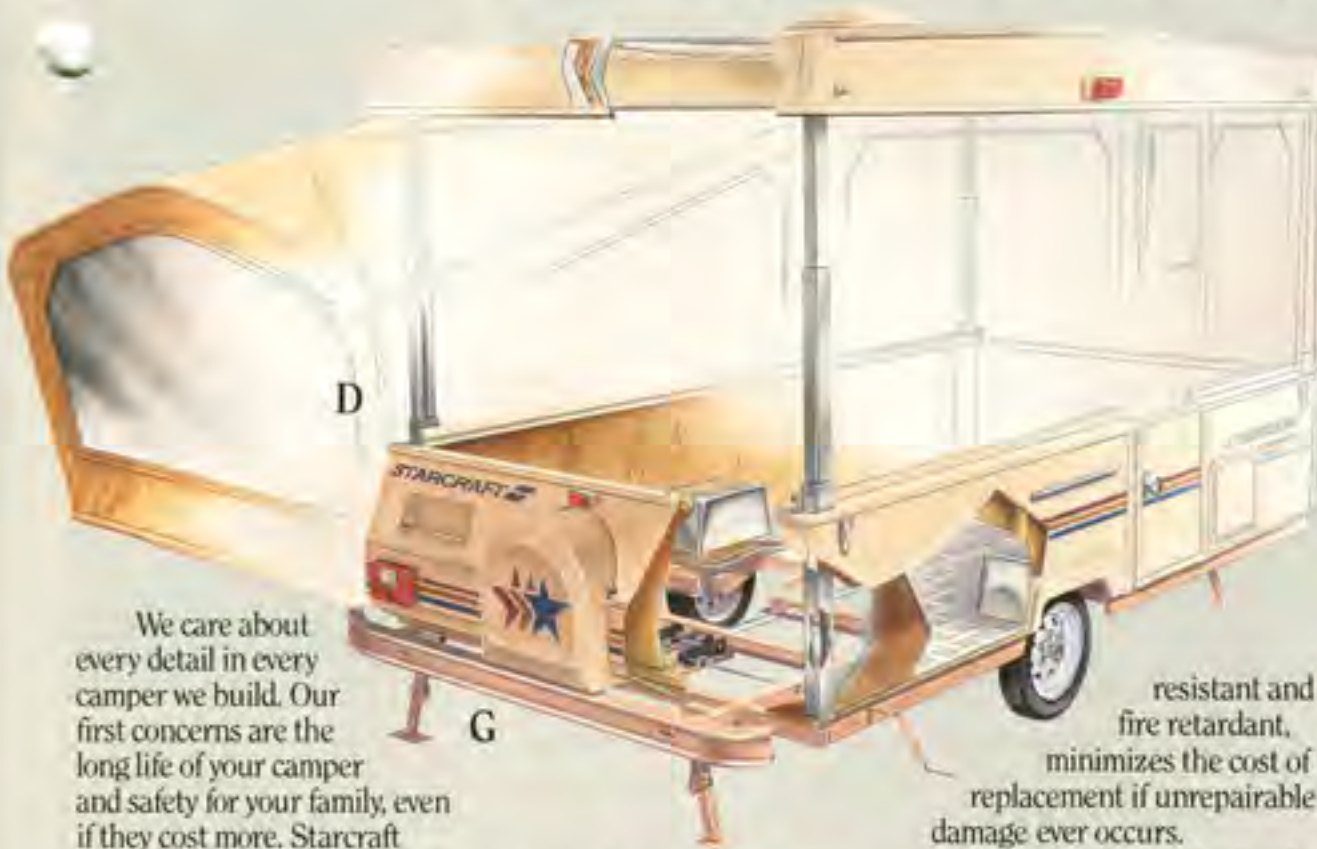

Before you buy any camper, make sure you put the roof up and down yourself. You'll be surprised at the difference. At Starcraft we are so confident of the strength of our lifter system that we dared to turn one of our campers on its roof. This photo has not been retouched, and no special supports were added for this demonstration. In fact, this camper sustained no damage even though it was turned over for several demonstrations. The lifter system alone supports the weight of the base of this 1,185-pound Starcraft camper.

You won't put your Starcraft through such rigorous testing, but you can be sure it will wear well. We're sure, too, and back our lifter system with a Limited Lifetime Warranty. Your dealer has complete details.

*This unretouched photo shows just how strong the Starcraft lifter system is. With no extra supports or braces this upside-down camper is supporting its weight by the strength of the lifter system. Starcraft's strength can't be topped!*

# THE "INSIDE" STORY

We care about every detail in every camper we build. Our first concerns are the long life of your camper and safety for your family, even if they cost more. Starcraft campers mean quality. You have our name on it! That's why

each and every 1988 model we build, from the top-line model to the lowest priced unit, has the following quality standard features.

**A** Wide track independent

torsion bar suspension is standard on all models. **B** 1/8 inch stainless steel lifter cables, stainless steel lifter posts, and heat-treated hardware make Starcraft's system the strongest, most reliably designed lifter system in history. **C** Limited lifetime lifter warranty backs our lifter system. Ask your dealer for details. **Real plywood bunkends and seat boxes** give solid, durable support. Bunkend setup is quick, and there's more headroom than in any other brand. **D** Five-piece sectionalized tent, treated to be mildew

resistant and fire retardant, minimizes the cost of replacement if unreparable damage ever occurs.

**E** Galvanized steel wheel wells resist corrosion and pre-

vent damage from road debris (many competitors use less durable plastic). **F** Four-ply, pressure-laminated roof begins with aluminum, followed by solid block foam (to insulate and prevent condensation) and plywood; the inside vinyl-covered Luan ceiling wears well and looks great. Tapering from front to back and side to side gives better aerodynamic performance and allows for rain run-off. **G** Tough steel bumper is standard and provides valuable rear-end protection. It is bolted in place for easier and less expensive replacement, if ever necessary. (Some competitors weld the bumper on and offer it only as an option.)

Compare Starcraft with the competition on all of these features, as well as: enamel-coated aluminum extrusions (to prevent oxidizing); vinyl moisture-barrier tents; hinged seat back supports; "sandwich" sidewall construction; one-piece Polymax® covered floor (one-piece undercoated floor in Astrolite and Meteor) covered with one-piece vinyl flooring.

## STARCRAFT ADVANTAGES

Because of our large network of dealers in the U.S. and Canada, we can assure you: "You're never alone when you own a Starcraft."

**SERVICE.** Our dealers are always available, if you ever need service. Starcraft provides factory-sponsored training for the most thorough service you'll ever need.

**WARRANTY.** Because we're confident in the quality of our

product, we offer a five-year limited warranty on the camper itself and a limited lifetime warranty on the lifter system. See your dealer for complete details.

**PARTS.** Replacement parts are shipped within 24-48 hours of order. Orders for parts for older models are almost always available but may require an extra few days for shipment.

**CAMPER CLUB.** The Starcraft Camper Club is your ticket to new friends and adventures. Camper rallies, a newsletter, and Starcraft clothing are just some of the benefits of the Club. **SATISFACTION.** When you own a camper that's carefully built, covered by a warranty and supported by a responsive parts department, you've eliminated worries. You can enjoy your time with your family with complete confidence and satisfaction.

# THE ADVENTURE-MAKERS

## Family Fun Is Yours...By the Day or By the Week

You'll find all of the fun — and none of the hassles — of a real camping vacation when it includes Starcraft's finest camping trailers. The Comet, Galaxy, Nova and our top of the line Constellation offer every convenience and every comfort that can be packed into a camping trailer. Showers? Toilets? Air conditioners? They are available on specific models.

You don't buy a camper just for its good looks, but that could well be one of the reasons for choosing Starcraft. From the sleek, modern exterior shape and bold graphics to the color-coordinated, finely crafted interiors, Starcraft fold-down campers are eye-appealing.

The interior color scheme, in a choice of either blue or mauve for each model, coordinates with flooring, cabinetry, drapes and optional privacy curtains. The standard curtain tiebacks and valances add a tasteful, homey touch.

Consider the comfort and convenience of Starcraft camping trailers and you've found another reason to make Starcraft your choice. Generous-sized sleeping areas include 4-inch, comfortable foam mattresses and cushions in most models. Each model has a different floorplan, allowing you to choose your preference — all are spacious and provide

You're ready for an adventure. Whether you pack your family outings into two weeks or several weekends, you're ready to go! You're looking for new sights and experiences, a campfire at night with the owls for company or the gentle sound of waves washing up on the lake shoreline to lull you to sleep.

*You'll enjoy the great outdoors with the carry-out stove and free-standing table.*

*Impact resistant Rovel® endwalls protect Starcraft's luxury campers from damage by flying road debris and are part of the aerodynamic styling.*

more storage space than you might think possible.

Starcraft campers are generous on headroom, too, with over 6'7" interior height in the top-line models and over 6'5" in all other models.

You'll be able to enjoy the outdoors even more with Starcraft's free-standing table and indoor/outdoor gas range. The range hooks up easily to the trailer's LP sources either inside or out.

Other features you'll appreciate about Starcraft's luxury line of camping trailers include our patented swing-up galley, 4 hi-intensity ceiling lamps, and a 14" x 14" crank-up roof vent. Backup lights, 4 standard stabilizer

*A great money-saver: Save on travel expenses, enjoy your privacy, and forget about daily packing and unpacking.*

jacks, and a safety brake light increase setup ease and maneuverability.

Starcraft was the first camper manufacturer to use independent torsion bar suspension and a wide track axle design on all models. Many competitors don't give you this feature because of the cost, but Starcraft knows it makes for safer towing. Another feature you won't find on models by many other competitors is the Polymax® under-floor barrier. This is a solid layer of protection for the floor of your camper.

And our exclusive lifter system can't be outdone by the competition for its strength, durability, and ease of operation.

## CONSTELLATION

For the ultimate in a self-contained, towable, fold-down camper, look no further than the Constellation. In addition to all the fine features of other high-line Starcraft campers, the Constellation includes a standard hot water system and a shower. Add the convenience of the optional 12-volt recirculating toilet, and you subtract the inconvenience of public restrooms. A 25-amp ac/dc power converter and a bunk end reading light are standard.

## NOVA

The spacious side-dinette floorplan is one reason Nova is our best-selling luxury camper. It enables you to get out of bed and prepare meals while others are still sleeping. Even if others are up, your cooking area is out of the general traffic area. You can add an optional furnace and use this camper many more months of the year.

Clockwise from upper left: *The Constellation's standard shower lets you enjoy all the comforts of home wherever you roam. The crank-up roof vents in all four luxury models are 14" x 14" to circulate air and remove heat. Starcraft gives you plenty of storage space, including this accessible,*

*pull-out shelf. Doorside storage is generous in Starcraft campers, too. Starcraft's big bunk ends are a snap to set up and give more headroom than you'll find on competitors' models. The amount of storage space under the dinette seats will surprise you.*

## COMET

Comet packs all the convenience and luxury features of the other top-of-the-line campers into a more compact 19 feet. It has all the features of its bigger brothers, such as a carry-out range and swing-up stainless steel sink, but in a lighter, slightly smaller package. These top-line campers also have aerodynamically styled front and back construction of high-impact resistant material.

## GALAXY

The Galaxy offers all the advantages of the top-of-the-line models of Starcraft camping trailers, plus a front-dinette floorplan. This arrangement actually divides the camper into two separate rooms for privacy and convenience. Standard features of the Galaxy include a vanity mirror and Port-a-Potty storage.

# JOIN THE GREAT ESCAPE

## Starcraft Has a Camper for Every Budget, Every Need

We've rounded out the Starcraft camper lineup with more models that include a wide variety of floorplans, sizes, and features—all at an economical price.

Choose from the Starstream, Starflyer, Starmaster, Starmate, and Starblazer, and your camper includes features such as comfortable 4-inch foam mattresses and cushions, a stainless steel sink, a roof vent, and a patio light. The 3-burner, carry-out stove can be hooked up indoors or outdoors to the trailer's LP source.

You don't compromise on quality when you select one of Starcraft's popular priced models. You'll find plenty of room, with a floorplan and size perfect for your family's outings. Even our two lowest price models, the Meteor and the Astrolite, include many more features and benefits than many so-called high-line, competitive units. Compare before you buy!

Starcraft doesn't compromise on details, either, in any of its campers. You still get features such as our 5-piece sectionalized tent. For all campers, Starcraft uses only Terrasol 302 fire retardant canvas that's treated with Vivatex guarding to be mildew resistant and water repellent. If a section of the canvas ever sustains non-repairable damage,

you replace only that section (which is easy to get from Starcraft). Also, most campers are built with a Polymax® under-floor barrier.

All Starcraft campers are constructed with many of the same features as the luxury units, such as independent torsion bar suspension and a wide track (67") axle design. Starcraft was the first to incorporate these features on all models, in order to make towing safer and easier, especially with today's lighter weight tow vehicles.

No rainy weather blues:  
*Can you imagine this much enjoyment in a tent on a rainy day? Play table games, watch TV, read, cook, eat — all in comfort because you have plenty of room in a Starcraft camper.*

Do you enjoy getting out into the wilderness to hunt, fish, canoe, hike — or just to enjoy the outdoors? Whatever your recreational pursuits, Starcraft's many models of fold-down campers are a great way to step up.

Use your camper as a base camp for your great adventure, or make the adventure just being outdoors with your family. You'll still enjoy the gentle evening breezes and night sounds, get to the out-of-the-way spots, and feel as though you're "roughing" it.

*You'll appreciate the extra sleeping space in the Starmaster if you have a large family, take the neighbor's kids — or have teen-agers who want to have a get-together. The Starmaster sleeps 8.*

*Starcraft lets you enjoy more time with your family. All of our campers can be set up easily by one person in as little as 6 minutes. It's a snap for anyone to crank up.*

But now, get off of the chilly, hard (and sometimes wet) ground and enjoy a refreshing night's sleep on Starcraft's comfortable mattresses. Prepare meals and wash dishes in the convenient galley.

Enjoy some extra free time, too. No need to pack and repack everything in boxes — store your toiletries, dishes,

*Flip the cushions from their attractive upholstery side to the vinyl side. No need to worry about wet bathing suits, towels, or other mishaps. Covers are cleanable.*

*Use the fiberglass panels in Starcraft's door for privacy and protection from weather, or remove them for a full screen door.*

*Home base: Use your Starcraft camper as a base camp while you spend the day fishing, hunting, hiking, or exploring. When you return, enjoy the comforts of home — a convenient kitchen, with water supply, comfortable sleeping areas, and protection from the weather a tent just can't offer.*

and groceries in drawers and cabinets. It's convenient while you're camping and, because you outfit your camper with everything you need, you begin and end each trip already packed. Just fold it down and you're ready for your next adventure.

And perhaps the greatest treat is not having to worry about the weather. If it rains, you can cook and eat, sleep, play games together, and stay DRY!

For every reason that you enjoy the great outdoors, you can enjoy it a whole lot more with a Starcraft camper!

## STARSTREAM

When you want the biggest camper around but don't want to spend a whole lot of money, you want the 24-foot Starstream. Loaded with storage space, huge bunks, and big windows, this side-dinette floorplan gives your family plenty of room.

## STARFLYER

Starflyer offers Starstream's convenient floorplan in a more compact 21-foot length. As with all Starcraft campers, it can be equipped with a boat rack or bike rack. An optional heater can extend any Starcraft camper's use.

## STARMASTER

Larger families appreciate this eight-sleeper. The gaucho is an extra seat during the day and an additional bed for two at night.

## STARMATE

The 19-foot Starmate sleeps six and has all the conveniences you need to make your camping trip fun and relaxing. As with all models, an ice box is standard.

## STARBLAZER

The lightweight, economy-priced Starblazer rides down the road like a breeze. But with room to sleep six, a stainless steel sink, an indoor-outdoor stove, a 10-gallon water supply, this camper will be set up and in use as often as possible.

## METEOR

You'll understand why the Meteor is one of our best sellers when you check out its economy-minded layout. With room to sleep six, the Meteor has complete gas, water, and electrical systems, a stainless steel sink, a two-burner stove, and an ice box.

## ASTROLITE

The budget-conscious family wanting to move up from tent camping will enjoy the lengthy list of standards on the Astrolite, such as the galley — complete with ice box, sink, and stove.

# OPTIONAL EQUIPMENT

## As Much Convenience As You Want

From upper left to right:

**Outside storage.** The large outside locking door allows you to store any number of things. You have easy access from either the inside or the outside.

**Vinyl Tire Cover.** Protect your spare tire. This option is available for all models.

**Bottle Cover.** This vinyl cover protects your LP gas bottle(s).

**Hot Water System.** This includes a 20-gallon fresh water tank (10 gallons on Comet), a 6-gallon quick recovery hot water heater, hot/cold mixing faucet, demand pump, and twin 20-pound gas bottles.

**Furnace.** The forced air circulation heater provides 12,000 BTUs for our three smaller units and 17,000 BTUs for all other models.

**Refrigerator.** This 2-way, built-in refrigerator runs on either 12V LP gas.

**3-Way Refrigerator.** A portable chest refrigerator, this unit runs on 12V, 110AC, or LP gas.

**Privacy Curtains.** Made to match the other curtains in the camper, these curtains provide privacy for bunk ends.

**Bag Awning.** This free-standing awning stores on the outside – it doesn't take up space inside during transit.

**Screen Room.** Add this to your bag awning and increase your living area – without insects!

**Boat Rack.** The complete kit includes aluminum rack, mounting brackets, and tie-downs straps. It's available for all fold-down units and can haul canoes and other small boats.

**Clothes Bar.** You can keep clothes looking fresh because you have a convenient place to hang them.

**Wardrobe.** Add closet and shelf space to your camper and keep your clothes neat. The wardrobe stores on the floor when the camper is folded down.

**Maple Cutting Board.** Not a luxury! This handy helper is hand rubbed and also serves as a sink cover.

**Self-Storing Safety Doorstep.** The step has a non-skid surface that makes entry and exit safe and easy. The step stores quickly and easily out of the way.

**Toilet.** This 12V recirculating toilet will make your Constellation or Galaxy a self-contained unit. No more public restrooms!

Starcraft people have been making the difference since we began making farm equipment in 1903, and Starcraft has been fortunate to have a work force of individuals committed to working hard and manufacturing quality products.

Our reputation as a boatmaker was firmly established by the 1920s, and through the years we've added new products, such as fiberglass boats, and innovations, such as our often-copied gull-winged hull design.

We made a dramatic entrance into the RV industry by introducing fold-down campers with a crank-up lift system and a hard

top. Our lineup of RVs now includes luxurious fifth wheels, travel trailers, and truck campers.

Starcraft also is the industry leader in luxury automotive van conversions, offering packages on full- and mini-sized vans, a new camper van, 4-wheel drive vehicles, and other specialty automotive products.

Starcraft has been in continuous operation for 85 years because our people care about the quality of the products we build. Our commitment is your assurance of the finest features and quality in everything that carries the Starcraft name.
