

STARCRAFT

Quality and Integrity Since 1903

1989 Camping Trailers

Top-notch construc

All features called out on this cutaway are standard equipment on all 1989 models unless specifically noted otherwise.

Lifter posts

3- or 4-stage; extra wide, solid, heavy-gauge stainless steel for rust-free operation and easy cranking.

Lifter system

Uses the most durable materials possible for long wear: 1/8-inch stainless steel aircraft cable, extra strong hardened steel pulleys, heat treated brackets, automatic brake. Easy access for visual check and maintenance. Limited lifetime warranty.

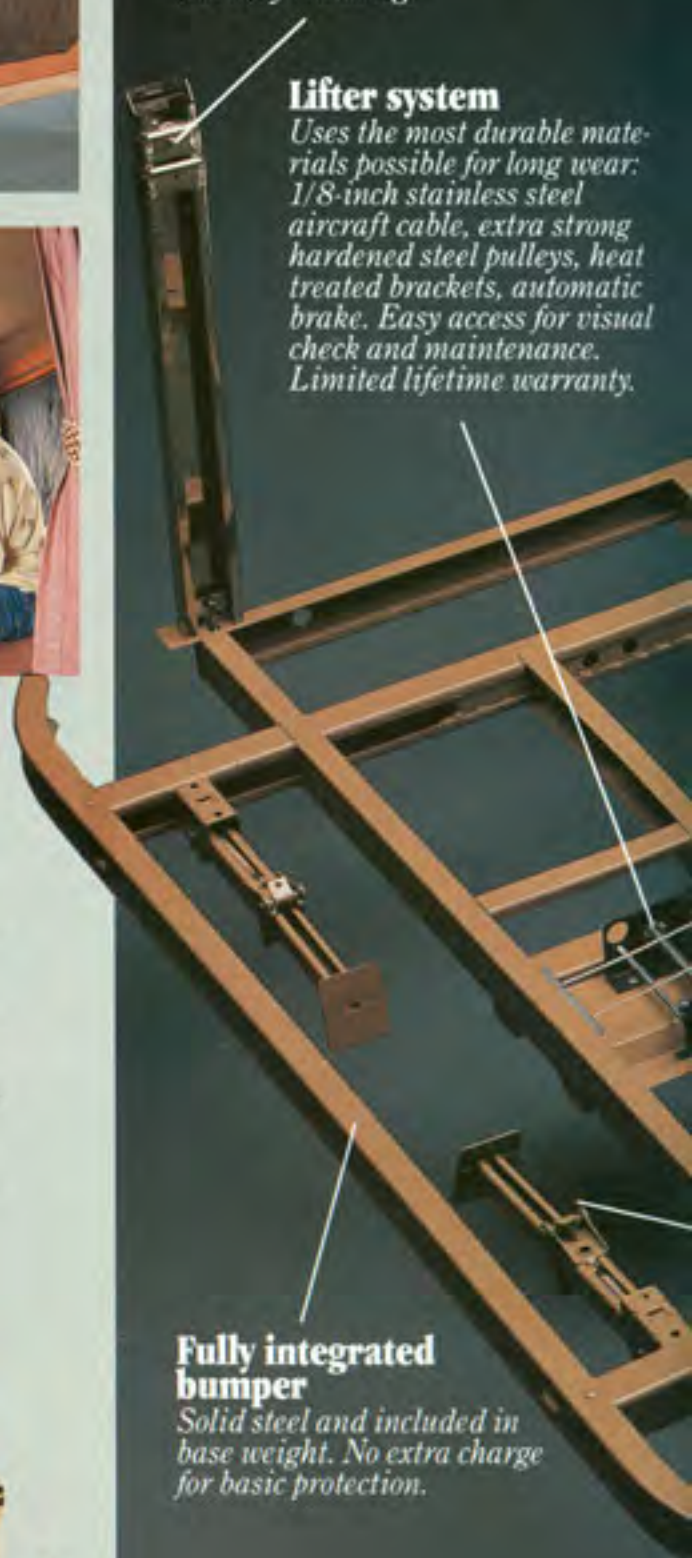

Top We've proven it... our lifter system is strong and durable enough to support the weight of the camper and more. None stronger.

Middle Set up takes only minutes; adjustable bunkend supports snap into place easily. Headroom in bunkends is a minimum of 36 inches at the end wall.

Left Bunkends pull out easily; end canvas is permanently attached; sets up without stooping inside or out.

Below The AllStar series sports a sleek, aerodynamic exterior of molded Rovell® and smooth fiberglass. Gas bottles and battery mount are outside for easier access.

Fully integrated bumper

Solid steel and included in base weight. No extra charge for basic protection.

tion means years of reliability.

Galvanized steel wheel wells

Resist corrosion and prevent damage from road debris.

Independent torsion bar suspension

Incorporated with the widest track axle design for superb tracking and safe towing.

"C" channel frame

Precision engineered, solid steel. Extra strong without extra weight of box channel. Limited lifetime warranty.

Polymax® underfloor

Gives a solid, 1-piece layer of protection for the floor as in \$100,000 motorhomes. (1-piece undercoated floor in Meteor™ and Astrolite™.)

Pop-up dolly jack

Self-storing, retractable, easy swivel. Permanently attached; wheel is center mounted for best control.

Structurwood® floor

One-piece oriented strand board means greater strength than plywood, no seams. Lifetime limited warranty.

18-gallon water tank!

Unique underfloor location improves storage space and towing. (AllStar series only.)

One-piece linoleum

Rugged Armstrong® brand. Runs wall to wall, end to end.

Wheels/tires

12-inch mag style wheels. Goodyear® tires. (8-inch tires on Starblazer™, Meteor™, Astrolite™, 13-inch on Spacestar™.)

Built-in stabilizer jacks

Adjustable, welded steel; 4 on most models (2 on others).

**Lifetime Limited
Warranty**

LIFTER•FRAME•FLOOR

Convenience features

Starcraft uses the finest materials available to insure quality for your camper, including: Armstrong®, Formica®, Goodyear®, Hydroflame®, Rovel®, Polymax®, Structurwood®, and Vivatex®.

Hot Water System

Includes: 6-gallon quick recovery gas water heater; hot/cold mixing faucet; electric demand pump; 15 amp converter; twin 20 lb. gas bottles. Optional on Constellation™; Galaxy™; Nova™, and Comet™ only.

Real wood cabinetry

Solid and durable for an attractive, well-built look. Easy maintenance.

All features called out on this cutaway are standard equipment on all 1989 models unless specifically noted otherwise.

Cans won't tip over in this practical sliding pantry in the Galaxy™.

Middle *The optional air conditioner roof mount prep package gives extra support where it's needed so you can add cooling comfort. Roof vents are standard on all models. The mill-rolled lock seam construction on the roof prevents leaks, and the radius design provides water run-off.*

Left *Five-piece sectionalized tent is rugged, proven 10/10 Army duck canvas. Lock stitching and double stitching insure long life. Zippers are self-healing.*

Below *You're more visible to other drivers with AllStar's new wrap-around, recessed taillights. Backup lights included.*

Top *Stand up tall — Every Starcraft camper has 6'7½" or 6'5½" of headroom.*

Plywood bunkends

Solid, 1-piece bunkends slide out easily in extruded aluminum channels. Tubular steel supports for extra load capacity.

provide home-like comfort... including the hot water!

Stainless steel sink

Means easy clean-up; accompanied by 2-stage faucet (mixing faucet with hot water system), brass city water hook-up, and self-contained fresh water storage. Extra large size on AllStar models.

Seat back supports

Cushions don't collapse when you lean back because hinged, plywood supports extend full width of cushion.

4-inch cushions

Comfortable; durable, long-wearing fabric on one side that reverses to heavy vinyl (3-inch cushions on Meteor™ and Astrolite™). Zippered for easy cleaning. Includes bunk-end cushions.

Carry-out table

Free-standing to use inside, outside, or anywhere. High pressure laminate surface with steel legs.

Outside electrical receptacle

For convenience; ground fault interrupter for safety (AllStar series models only).

Carry-out stove

Hooks up to the LP source indoors or outdoor; mounts safely on camper's sidewall. (All models except Astrolite™ and Meteor™.)

Fiberglass sidewalls

Smooth, impact resistant laminated fiberglass (AllStar series models only).

AllStar Series:

Left, Top to Bottom Constellation™: the shower is standard, and a toilet is available for the most complete self-contained camper available. **Nova™:** the side-dinette arrangement means plenty of floor space. **Comet™:** all the high-line styling and features of the AllStar series in a compact size. **Galaxy™:** the effect of this front dinette floorplan is two separate rooms for privacy and convenience.

Compared to any other camping trailer available, Starcraft's AllStar series gives you the best of everything. The quality will last for years, and so will the features, which are more convenient and practical than ever:

- Hot water system. Optional for all AllStar models. Includes 6-gallon quick recovery heater (see p. 5 for complete details).

- More storage space than before — the water tank and battery box are relocated to increase interior storage space.

- Battery rack and wiring (standard on AllStar). The new location (under the front exterior cover) provides easier access and increases interior storage.

- Larger water storage capacity. The tank is now below the floor (protected underneath by a Polymax® under-floor barrier). Its 18-gallon freshwater capacity is the largest in the industry. Situated between the wheels and over the axle, the tank is stable even when full; side-to-side balance means virtually no increase in hitch weight.

- Outside electrical receptacle. Consumers said an outside 110V duplex receptacle would be handy. Now you have one, with three more inside (all with ground fault interrupter).

Left Enjoy the privacy of your own shower, a standard feature on the Constellation.

The best in the outdoors.

There are even more features, making these the most convenient camper available:

- Comfortable, attractive interiors. Curtains, flooring, cabinets, and countertops are easy to clean and maintain — choose either blue or mauve color schemes. Dinette and bunk cushions (4" thick) reverse from long-wearing upholstery on one side to vinyl.

- Five-piece sectionalized tent, large screens. Two-way windows in bunks have screens and zip-up canvas. Other windows add a third, zip-up tinted plastic window that allows light in but provides weather protection and privacy. The flame retardant canvas removes easily in sections so that, if damage occurs, only one section needs to be replaced — in all StarLite series campers, too.

- And even more. An indoor-outdoor gas range. High-impact Rovel® endwalls with new

wrap-around recessed taillights with backup lights and center, high-mount brake light. A patented swing-up galley. Interior height of 6'7½", built-in stabilizer jacks. A large selection of options.

For camping enjoyment and convenience, the AllStar series has it all over the competition.

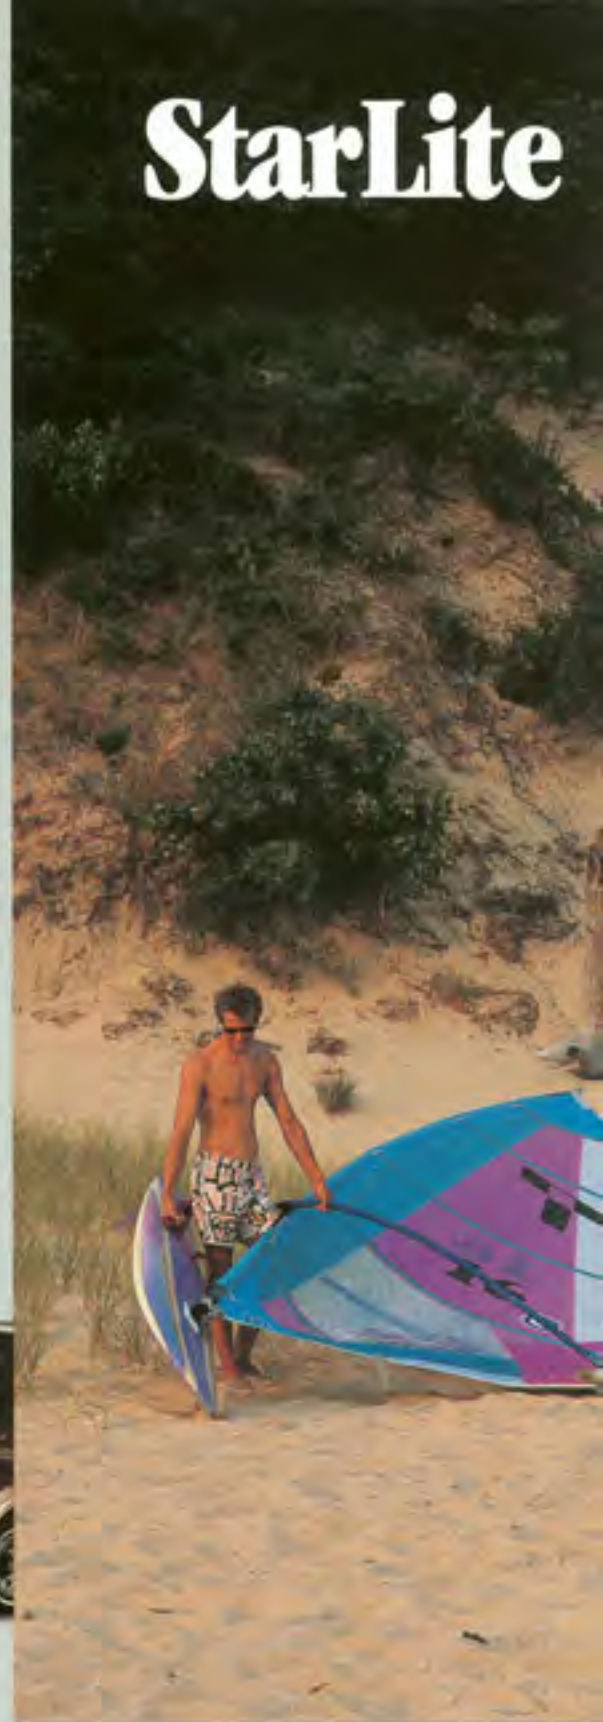

Above, Right Whether or not there's a baby in your family, you'll appreciate the hot water and extra large sink in each AllStar camper.

StarLite

From Top, Left to Right
Starstream[®]: 24-foot length, huge bunks.
Starflyer[®]: more compact at 21 feet.
Starmaster[®]: sleeps 8. **Starmate**[™]: 19 feet yet loaded with features. **Starblazer**[™]: the best AllStar features in the most compact size. **Meteor**[™]: plenty of room, plenty of economy. **Astrolite**[™]: ideal for budget-conscious campers.

An industry first: basement storage!

Starcraft introduces an exciting innovation. By adding just a few inches in height, the new Spacestar[™] and Starliner[™] take advantage of space within the dimensions of the frame to provide "full basement" storage with access from six locations. It's watertight and airtight, so you can carry anything from non-perishable foodstuffs to water skis.

The StarLite series has a camper for your budget and your needs. The Starstream[®], Starliner[™], Starflyer[®], Spacestar[™], Starmaster[®], Starmate[™], or Starblazer[™] give you features such as comfortable 4-inch foam mattresses and cushions, a stainless steel sink, and a patio light. Cook indoors or out with the three-burner, carry-out LP stove.

The Meteor[™] and Astrolite[™] offer you real value without skimping on comfort and convenience. Along with the other StarLite campers, these smaller, lighter economy models have a

Above, Left Get to the "basement" storage area from inside through this sliding door or one hidden under the dinette seat.

Series: Economy in the price, not the experience.

All of the cargo pictured came from the basement area of the new Spacestar™!

Spacestar™

roof vent, 5-piece sectionalized tent, and fire retardant canvas that's treated with Vivatex® to be mildew resistant and water repellent.

All Starcraft campers have independent torsion bar suspension and wide track (67 inches) axle design, especially appropriate for today's lighter weight tow vehicles. Other features include solidly built cabinet and drawer storage, comfortable sleeping areas, running water, and a built-in icebox. Tent camping was never so convenient!

Check the options chart (p. 11) to add just the extras you want, such as a refrigerator, bag awning, screen room, spare tire, or furnace with Peizo electric ignition — no matches required (manual on Meteor™, Starblazer™ and Astrolite™).

For every reason you enjoy the great outdoors, enjoy it even more in a Starcraft camper.

Above, Left The basement area adds 39 cubic feet of storage space with access from four outside doors. Total cargo capacity is 750 lbs.

comfort and convenience abound.
